CONFERENCE 2022**

DELEGATE TICKETS

**THE ROADMAP TO
SUSTAINABLE RESILIENCE**

East Midlands Conference Centre, Nottingham
29th & 30th June 2022

WHAT IS 'SUSTAINABLE'?

Environmental sustainability is the responsibility to conserve natural resources and protect global ecosystems to support health and wellbeing, now and in the future. So many decisions that impact the environment are not felt immediately - a key element of environmental sustainability is its forward-looking nature. We must ensure that we are meeting today's needs without compromising the ability of future generations to meet their needs.

The 2022 BDMA conference's theme focuses on 'The roadmap to sustainable resilience' and sets out to explore what our brave new world needs to look like and the necessary change to secure a bright future.

The property insurance supply chain has faced a series of unparalleled challenges since we were all last together in November 2019. We are well used to dealing with competition, with even greater customer expectations, with surge events, with changes in insurer priorities, but no one could have been truly prepared for what BREXIT and COVID-19 created. In a sector where resilience and response are the ordinary, we have been tested in extraordinary ways.

But there remain big challenges ahead for our industry and if we are to continue to prosper and grow, we need to build even more resilience into our businesses and demonstrate sustainability – not just in ESG (Environmental, Social and Corporate Governance), but in business performance.

The British Damage Management Association is proud to host the 2022 conference at the De Vere East Midlands Conference Centre, just four miles from Nottingham and close to the M1 motorway. The conference centre has excellent transport links nationwide, and offers all amenities on site, from parking and electric vehicle charging to bars and restaurants. We are able to offer accommodation packages at the De Vere Orchard Hotel, situated on site at the conference centre.

As a reflection of our important message of sustainability, our venue is proud to show their green credentials. Sustainability is at the core of a recent refurbishment, from water refill stations reducing the need for single-use plastics to locally-sourced food, helping reduce the carbon footprint.

The De Vere East Midlands Conference Centre offers an excellent range of exhibitor space and rooms, ensuring that all of our trade exhibitors and sponsors can find a space to best showcase their business. Full layout plans of exhibitor stalls will be available closer to the date of the conference.

Use of the word 'Sustainability' 1800 to 2019

DELEGATE TICKETS

The BDMA are offering a range of available tickets over the two days of the conference - it promises to be an invaluable two days for everyone associated with the industry. With seminars to trade stands networking buffets to awards ceremonies, every corner of our exhibition space will be bursting with ways to enhance your career, or your businesses position within the industry.

The 2 day package includes access to all areas and presentations, and also includes a networking buffet on the evening of the 29th. 1 Day access tickets are valid for either the 29th or 30th, please make sure to specify when booking.
